

TO WHOM IT MAY CONCERN

In 2008 the Sathya Sai Primary School embarked on a building program to replace temporary classrooms. The project involved two stages of construction.

Stage 1 Three classrooms, library and music room

Stage 2 Four classrooms, toilets and store room

Bill Engwirda Building Contractors Company was given the contract for Stage 1, which commenced in November 2008 and was completed in June 2009. We have been very pleased with all aspects of the contract.

- Work was completed as per schedule
- The quality of the work was excellent
- The supervision of the workers in the school environment was strictly controlled
- Our requests for alterations were quickly dealt with and incorporated.

In general, we have been most impressed with the whole operation. The Engwirda Building Contractors Company has been granted the Stage 2 contract, which will be completed in January 2010. This stage involved the Commonwealth Government's School of the Future Grants.

We have no hesitation in recommending Engwirda Building Contractors to any group requiring construction of a school or any other building.
