

We had the pleasure of working with the Cullen Group on our recently completed "Azura – Kingscliff Beach" luxury apartment & retail development and have found them to be a most professional & pro-active organisation.

We commend Wayne Cullen & his team on their strong project management skills including forethought to anticipate issues, thorough planning, clear and timely communication, plus, a pragmatic and professional approach throughout their involvement in this high profile building that required a high degree of attention to detail.

We congratulate the Cullen Group once again and look forward to working together in the future.
